

Type	Growing Zone	Maturity	Height	Lodging
CL HYB	ALL	+0.5	+2.0	G

- R to blackleg and fusarium wilt
- A superb yielding hybrid in the Clearfield segment

Performance Overview

Variety	# of Comparisons	Yield (bu/ac)
CANTERRA 1651H Nex 845 CL	8	44.09 43.09
CANTERRA 1651H 71-40 CL	4	41.26 40.82

Yield data collected from 2007-2009 YieldWorks and Demonstration Trials

Key Strengths

- Outstanding early season vigour
- Exceptional yield potential in the CLEARFIELD herbicide segment
- When sprayed with BASF herbicides, can control flushing weeds like cleavers and chickweed
